RESIDENCES

Kokomo's five expansive residences offer an unforgettable escape for multi-generational families and friends travelling together. Perfectly positioned on the hilltops, and surrounded by lush tropical gardens, each residence offers captivating views from sunrise to sunset. Adventure

FISHING

A short distance from Kokomo are some of the most fertile and untouched waters Fiji has to offer. Ideally positioned within close proximity to the Great Astrolabe Reef, Kokomo offers varied, unrivalled and world-class fishing opportunities. To experience the thrills of big game or sports fishing, you need only venture a little further from the resort to the outer reefs, where large schools of tuna cloud the top of untouched seamounts and blue marlin cruise the deep water off the edge.

DIVING

Discover the underwater wonders of the world's fourth largest reef, on an unparalleled underwater adventure. Extending for over 100km (62 miles), the Great Astrolabe Reef is the ultimate playground for dive enthusiasts. Located on the north east of the Kadavu islands group, Kokomo offers exclusivity to dive sites that are not frequented by other resorts. Come face to face with manta rays, reef sharks, turtles and more as you explore our underwater world.

SNORKELLING

Snorkel directly off the beach on Kokomo's East Beach or journey by boat to the outer reef. Glide along the surface, marvelling at hard and soft corals, colourful parrotfish and elegant angelfish. Breathe in and dive deep, admiring the marine life up close, before returning again to the surface. Teeming with life, our reefs are home to turtles, reef sharks, manta rays, dolphins and an endless array of fish and corals. Grab your flippers and a mask from Baywatch, and jump in.

WATERFALL

Travel by boat to a nearby island and prepare to trek inland and uphill. The island of Kadavu is home to an abundance of magnificent flora and fauna, just waiting to be explored. The walk is rewarding and well worth the adventure, when you cool off with a dip in the refreshing natural waterfall. Descend to the boat feeling revived, and enjoy a selection of light refreshments or a picnic lunch before returning to Kokomo.

SUSTAINABILITY

From increasing cultural understanding to aiding in the conservation of wildlife, there's no denying the positive impact travel can have on the world. Kokomo values sustainability and we've made it our priority to connect and invest in our island, our community and the waterways that surround us. We also provide our guests with the opportunity to get involved with our islands ecological, conservation and sustainability programs. It's all here waiting for you.
